
Minor in Economics

University of Arizona students whose college requires a minor (e.g., College of Social & Behavioral Studies), may choose to minor in Economics. A minor in Economics requires:

1. a *minimum* of 18 units in Economics
2. a *minimum* of 9 (of the 18 units) must be upper-division

In addition to the above units specifications, minors in Economics must complete the following specific course requirements:

1. Introductory Economics: Econ. 200 *or* 201a-b *or* 210 (210 has a prerequisite of six units of calculus). One of these introductory offerings must be completed before other Economics classes can be taken.
2. Macroeconomics Requirement: Students must complete *one* of the following two classes:
 - Econ. 330 (can only be taken during Summer and Winter Sessions)
 - Econ. 332 (P, Math. 113 or 115a-b or 124 or 125)
3. Microeconomics Requirement: Students must complete *one* of the following two classes:
 - Econ. 300 (can only be taken during Summer and Winter Sessions)
 - Econ. 361 (P, Math. 113 or 115a-b or 124 or 125)

Additional Economics electives should be selected to complete the 18 units requirement based on student interest and goals. Please note that enrollment into Econ. 300 and 330 during the Fall and Spring Semesters is restricted to students who have been admitted to Advanced Standing status in the Eller College. Students who minor in Economics are only eligible to take Econ. 300 and 330 during the Summer and Winter Sessions.

Students interested in taking Econ. 332 or 361 should note that Math. 113 or 115a-b or 124 or 125 is a prerequisite for both courses.
